KEIKO

2025

This collection delves into the delicate balance between darkness and light, exploring their coexistence as both opposites and complements. Drawing inspiration from the ephemeral beauty of twilight and the stark clarity of monochrome, it celebrates the tension and harmony that shape our existence.

The silhouettes in this collection are experimental and unapologetically bold, designed to challenge traditional boundaries and redefine what it means to make a statement. Edgy cuts, unexpected drapes, and dynamic layering reflect the unpredictability of shadow and light.
